-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

- 6) ☐ Other: ____.

Claim Objections

Claims 4-8 and 13 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The above claims do not fairly further limit the independent apparatus claims (1 and 12) from which they depend because the above claims recite only limitations dealing with the manner or method of use of the claimed apparatus (the type of extraction agent to be employed or the type of metal (copper) to be extracted). It has been well settled that the manner or method of use of an apparatus cannot be relied upon to fairly further limit claims to the apparatus itself. See MPEP 2114 and 2115, as well as *In re Casey*, 152 USPQ 235.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 10-17 and 19-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Domic et al. Domic et al, in the embodiment of figure 1 and at col. 3 line 46 to col. 4 line 66 for example, teach a method and apparatus for counter current solvent extraction including three counter current reactors contacting at least two stripping stages for extraction of either copper or nickel values (see col. 4 lines 60-64 for example) and where the instantly recited compounds can

be employed as the solvent extraction reagents (see col. 4 lines 55-61 for example) thereby showing all aspects of the above claims.

Claims 1-15, 17-20 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by either of Lower or Pang. Both of Lower the embodiment of figure 1 for example) and Pang (the embodiment of figure 1 for example) teach a method and apparatus for the counter current solvent extraction of copper values comprising at least 3 counter current extraction stages, a wash, or filter stage and a strip stage, thereby showing all aspects of the above claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of Duyvesteyn et al, Virnig et al and Morin et al are all cited as further examples of prior art counter current solvent extraction methods and plants.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.
